### BOARD OF SUPERVISORS

WILLIAM B. HAWK  
CHAIRMAN

WILLIAM C. SEEDS, SR.  
VICE CHAIRMAN

GARY A. CRISSMAN  
SECRETARY

WILLIAM L. HORNUNG  
DAVID B. BLAIN, CPA, CVA

The Honorable Julius Genachowski  
Federal Communications Commission  
Room 8-B201  
445 12<sup>th</sup> Street SW  
Washington, DC 20554

Dear Mr. Genachowski:

I know this is probably not the first letter you have received regarding the company LightSquared, but I just wanted to voice my support for them and everything they stand for. When I first heard about LightSquared it was concerning the GPS interference issue. I was interested in learning more about the company so I read their website along with press releases and really learned the whole story. From what I understand it seems as though the GPS devices are creating the interference problems for themselves. It appears to me that they have no right to be in LightSquared's spectrum and have created the problem as a result of poorly constructed devices. Despite the fact that LightSquared did not anticipate this problem, they have been working to resolve it ever since it was brought to their attention and I hope that you and the FCC will support them in their efforts to fix the problem.

LightSquared's new wireless network will broaden access for all Americans. They will bring more coverage, more choices, and more affordable wireless access to every corner of the US. Their unique wholesale business model will enable affordability, choice, and innovation and will offer wireless services at a substantial discount from current retail prices. The broadband services they will provide to all Americans plans to cover 260 million by the end of 2015. To me it is plain to see that the benefits of LightSquared's network outweigh the interference issue. I believe that LightSquared's new network is the answer to bettering America's wireless technology and I hope that you see that as well. I encourage you, as well as the rest of the Commission, to move forward in approving LightSquared's wireless broadband network and help bring affordability and choice to America.

Thank you for your efforts on behalf of the American people to ensure effective and efficient communication services for our country.

Thank you,

Dave Blain  
Lower Paxton Township Supervisor
